Need to Know

SkyStation Location

Near Chunk 2

Primary SkyStation location for site operations, flight planning, and overall operational reference.

Alternate Landing Point

15.2m away from SkyStation

Designated alternate landing location near SkyStation-4 for emergency landing and recovery situations.

Relay Station

28.2 m. away from SkyStation

Relay station associated with SkyStation, serving as an solve signal blockage and achieve stable signal transmission.

Cell Tower

25.5 m away from SkyStation

The furthest breakpoint is in Chunk 1. In severe weather, the drone may trigger RTH before reaching it; consider starting the mission from a closer point.

Dense Village Area

Between Chunk 1 & 2

Dense village habitation between Chunks 1 and 2 requires do not fly over people and surroundings.

Dense Village Area

Near Chunk 2 Border

Dense village habitation between Chunks 1 and 2 requires do not fly over people and surroundings.

Dense Village Area

Near Chunk 2 & 3

Dense village habitation between Chunks 1 and 2 requires do not fly over people and surroundings.

Terrain Elevation Variation

Between Chunks 1 and 2

Sand dunes create significant terrain variation; account for elevation changes during flight.

Night Inspection

Entire Chunk 1

High people movement and unauthorized-entry risk make Chunk 1 a priority area for night-time inspection.

Dock Health

Aircraft

Matrice 4 Series - 4TD

Battery Cycles

97 Cycles - Good

Incident Log

Date & Time	Location	Incident Details	Action Taken	Log File
03 Jun 2026, 00:13:04	Near block 51	Drone initiated RTH after task completion and performed low-battery landing outside SkyStation landing area.	Drone was picked up back manually with the help of site team.	Open Log
16 Jul 2026, 13:04:19	Near block 28	Drone did Emergency landing of it's own as battery was not enough to reach the SkyStation.	Obstacle sensors were cleaned, resolving false obstacle detection.	Open Log

Site Stakeholders

DAY OPERATIONS

PERSON NO.	OPERATOR NAME	DESIGNATION
1	Kushagra	Drone Pilot
2	Sammith	Drone Pilot

NIGHT OPERATIONS

PERSON NO.	OPERATOR NAME	DESIGNATION
1	Bishwajeet	Drone Pilot
2	Sree Ram	Drone Pilot

ON-FIELD SUPPORT

PERSON NO.	PERSON NAME	DESIGNATION	CONTACT NUMBER
1	Mr. Vishal	Overall Site Head & IT Head	+91 635894 7518
2	Mr. Jawant Bhati	Security Supervisor	+91 72270 10549
